Summary

Aspiring Software Developer with strong skills in React Native and Android Studio, and a solid foundation in Java, JavaScript, and basic Python. Strong understanding of Data Structures and Algorithms (DSA) with a passion for building mobile applications and solving real-world problems through efficient, scalable code. Quick learner with a problem-solving mindset and a keen interest in full-stack development.

EDUCATION

Bachelor of Computer Applications (Ongoing) The ICFAI University

Expected Graduation: 2026

Class XII (Senior Secondary) Maa Saraswati Public School

Completed: 2022

SKILLS

Technical Skills: React Native, JavaScript, Java, Android Studio, Node.js, Express.js, MongoDB, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP).

Soft Skills: Adaptability, Team Collaboration, Problem-Solving, Willingness to Learn

PROJECTS

RoomieFind App

GitHub: <https://github.com/Suraj88658917/RoomieFindApp>

Description:

Developed a cross-platform mobile app to help students find hostels, flats (1BHK, 2BHK), rooms, and roommates based on filters like budget, gender, and personal preferences

- Implemented an advanced filter-based search with real-time listings using React Native and REST APIs
- Enabled users to personalize their roommate search by setting preferences such as budget, gender, lifestyle, and location
- Designed a flexible roommate matching feature that gives users full control over whom they connect with
- Integrated backend services with Node.js and Express, storing listings and user data in MongoDB
- **Tech Stack** : React Native · Node.js · Express.js · MongoDB · REST API · React Navigation · JavaScript

Employee Management App

GitHub: <https://github.com/Suraj88658917/Employee-Management-App>

Description:

Developed a mobile app to manage employee records, including registration, login, and personal data management

- Implemented secure authentication using JWT and integrated real-time CRUD operations via REST APIs
- Designed user-friendly UI and organized navigation for efficient team data handling
- **Tech Stack** : React Native · Node.js · Express.js · MongoDB · REST API · JavaScript

Legal Consultancy Web App

GitHub: <https://github.com/Suraj88658917/Legal-Consultancy-App>

Description :

Developed a full-stack mobile and web application to streamline legal consultations by connecting clients with verified lawyers and legal experts.

- Built a full-stack app to connect clients with legal experts, featuring appointment booking, lawyer profiles, and secure login.
- Designed a responsive React Native frontend and integrated it with a Node.js + Express backend using REST APIs and MongoDB.
- **Tech Stack** : React Native · Node.js · Express.js · MongoDB · REST API · React Navigation · JavaScript
